29→103

SaaS apps a company runs as it grows.

From years 1–2 to years 3–6 of a company's life.

Source: BetterCloud, via Spendesk, 2026

TURN2Digital

Growth adds tools. It rarely adds connections.

What gets bought

- A CRM for sales
- A board for projects
- A chat for customers
- A sheet for everything else

What nobody buys

- The link between them
- One source of truth
- Someone who owns the whole picture

TURN2Digital

More tools is not the problem.
Tools that don't agree is.
